-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Miska (US 5,656,795) in view of Fong (US 6,368,682).

Miska discloses embossing a polymeric film (42) to form a plurality of peaks (Fig. 4) and coating a conductive metal (52).

Miska fails to disclose vapor depositing the conductive metal.

Fong discloses vapor depositing the conductive metal (col. 8, line 36).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Miska by vapor depositing the conductive metal, as taught by Fong, for the purpose of providing a uniform coated metal layer.

3. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Miska (US 5,656,795)/Fong (US 6,368,682) as applied to claim 1 above, and further in view of Kaplo et al (US 5,045,635).

Miska/Fong fail to disclose providing a resilient core and enclosing the core in the conductive film.

Kaplo discloses providing a resilient core and enclosing the core in the conductive film (Fig. 7a).

Art Unit: 3729

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Miska/Fong by providing a resilient core and enclosing the core in the conductive film, as taught by Kaplo, for the purpose of effectively exerting a continuous outward pressure to provide hermetic seal and providing corrosion resistance.

Allowable Subject Matter

4. Claims 3-5 are allowed.

Response to Arguments

5. Applicant's arguments have been fully considered but they are not persuasive.

Annotated figure shows peaks in relative a reference.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Miska by vapor depositing the conductive metal, as taught by Fong, for the purpose of providing a uniform coated metal layer.

Miska discloses embossing a polymeric film (42) and Fong discloses vapor depositing the conductive metal.

Interviews After Final

6. Applicant note that an interview after a final rejection must be submitted briefly in writing the intended purpose and content of the interview (the agenda of the interview must be in writing). Upon review of the agenda, the Examiner may grant the interview if the examiner is convinced that disposal or clarification for appeal may be accomplished with only nominal further consideration. Interviews merely to restate arguments of record or to discuss new limitations will be denied. See MPEP 714.13 and 713.09.

Conclusion

7. Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
